Attached is a series of SASWG minutes and email correspondence related to your request. There are two redactions which is information provided voluntarily and they have not consented for its disclosure. Therefore, it was redacted under exception 10(5)(f) under Environmental Information (Scotland) Regulations 2004. It is in the interest of the public to allow the space for the working group to discuss issues open and frankly. Without maintaining a sense of confidentiality, when appropriate, would result in a reluctance to share information and key members leaving the working group and thus not achieving the objective – reducing the shooting of seals.

If you require any of the listed documents enclosed in a request for information, please contact:
